Making the most of your Wellmark benefits

This guide will help you know how to engage with Wellmark before, during and after using your benefits so you get the most from your health plan. We're committed to providing education, tools and resources that help you improve your health and live a better life. This includes:

Learning about health insurance: Knowing a basic **glossary** of insurance terms like deductible, coinsurance and copay helps you understand your coverage better and eliminate future frustration.

Saving money by staying in-network: Learn what a network is, the advantages of seeing in-network health care providers and how to find them.

Knowing your plan details: Discover what products and services are covered before you see your doctor or visit the hospital.

Establishing a medical home: Cultivating a long-term relationship with a designated primary care provider (PCP) allows them to get to know you, your health history and your health needs.

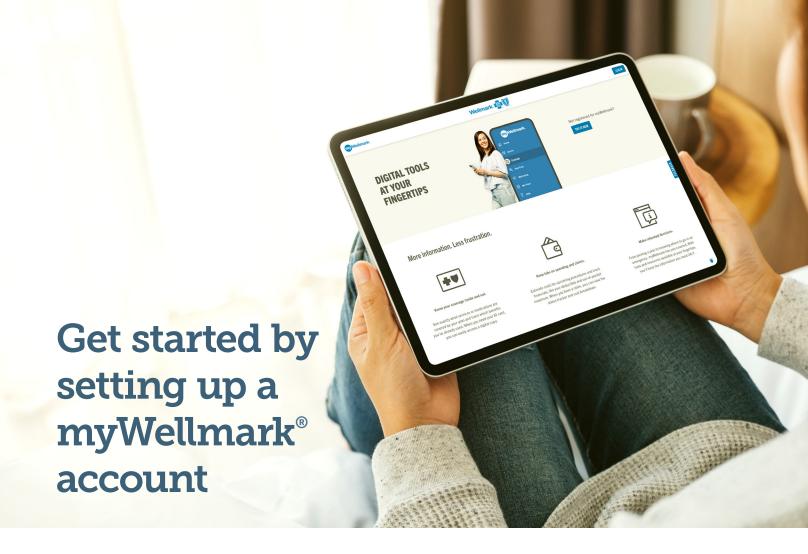

Accessing free tools and resources to maximize your benefits: Wellmark members have access to self-serve digital tools, health and wellness support, and exclusive discounts.

Focusing on the six elements of your well-being: Get tips to improve your physical, career, financial, social, community and emotional health.

This guide is not your official plan document, which provides specific details about covered and non-covered services. That information can be found in one or more of the three ways below.

How to view your official plan documents

- Log in to myWellmark at myWellmark.com and select the Coverage section.
- 2. Go to SBCCMFinder.Wellmark.com/Search.
- Reach out to your employer to obtain your official plan document.

myWellmark is the key to unlocking your personal health care information — no matter your location — with tools, resources and insights to help you manage health care spending and live a healthier life.

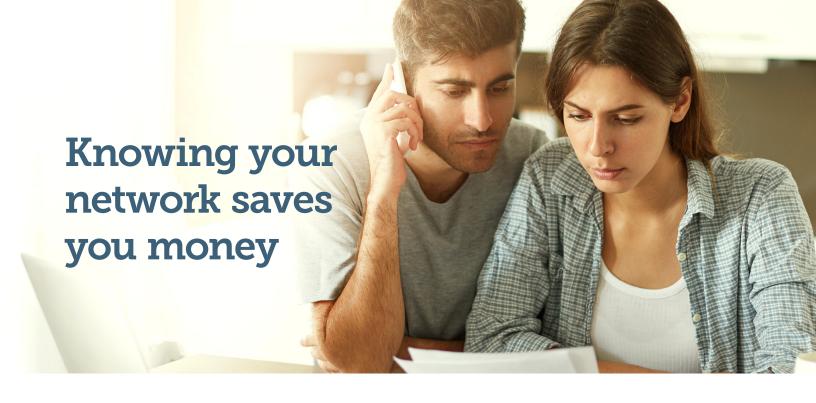

Use myWellmark, our secure online member portal, to:

- · Find information related to your specific benefits
- Estimate the cost of care for the most common procedures and services
- Find an in-network doctor or provider and select your primary care provider (PCP)
- · View recent claims and health care spending
- · Access your ID card and request a replacement
- · Get electronic documents quickly and securely
- · View your year-to-date spend report
- · Get insights to manage your well-being
- · Find mental health resources

Register for myWellmark at myWellmark.com today.

Best of all? It's free.

The term "in-network" health care provider describes practitioners, facilities or suppliers of health care services who Wellmark has made agreements with to give you the best prices possible. This means you won't be billed for differences between the provider's charge and our **maximum allowed amount**.

Network advantages for you

With Wellmark, you get access to one of the largest health care networks. You have the choice to use any doctor or hospital, but choosing an in-network provider has several advantages:

- · Lower out-of-pocket costs.
- · Referrals aren't required by Wellmark, so you can easily see specialists.
- · Waived deductibles for eligible office visits (unless you have a high-deductible health plan).
- Your out-of-pocket costs apply toward your deductible or out-of-pocket maximum.
- · In-network providers handle claim filing and obtaining insurance approval tasks for you.

In or out of network, you are always covered in the case of an emergency. However, you can avoid higher out-of-pocket expenses by visiting your designated PCP or an urgent care provider for minor, non-emergency situations.

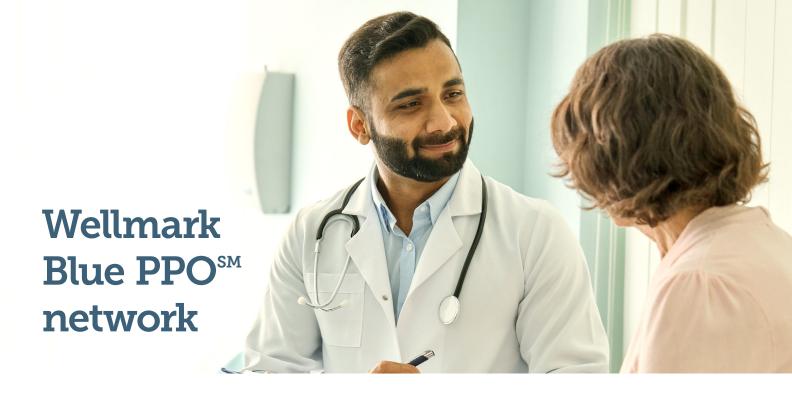

Looking for more ways to pay less for your health care?

Discover the **simplest way** to keep your costs down.

By staying in network, you get the best possible:

- Providers
- Hospitals
- Prices

Your network is the Wellmark Blue PPOSM network, our preferred provider organization (PPO), which gives you the broadest access to health care providers. With this network, you also get access to our national BlueCard[®] program that enables members of one Blue Cross and Blue Shield plan to obtain health care services while traveling or living in another service area.

Coverage across the United States

With the BlueCard program, you only pay the provider the usual out-of-pocket expenses (non-covered services, deductible, copay or coinsurance) when you use participating BlueCard providers across the country. Preventive services are \$0 out-of-pocket cost when received from any in-network provider.

Coverage across the world

If you need medical assistance outside the United States, all you need to do is show your Wellmark ID card at participating Blue Cross Blue Shield Global® providers.

Wellmark Blue PPO offers you:

- · Dependability
- Freedom
- Convenience

How to receive coverage outside the United States:

- · Verify what your international benefits are with Wellmark before leaving the country.
- In an emergency, go directly to the nearest doctor or hospital, then call the BlueCard Access® number on your ID card if you're admitted.
- For non-emergency inpatient medical care, call BlueCard Access to facilitate hospitalization at a Blue Cross Blue Shield Global provider.
- · Call the number on your ID card if precertification or prior authorization is necessary.

Better health outcomes, less hassle with a primary care provider (PCP)

Before you see a provider, consider selecting a personal doctor, also known as a primary care provider. Your PCP can play a major role in helping you manage and coordinate your health care needs. Advantages include: Participating providers agree to accept payment arrangements of the Blue Plan in their home state, which may result in a savings to you.

- Establishing a long-term relationship with a single health care provider who knows or will get to know you, your health and your health history.
- Managing your health care needs and maintaining your medical records.
- Assisting with a wide range of medical conditions and committing to improving your health.
- · Referring you to another in-network provider.

Find the best in-network providers

Locate in-network providers by visiting **myWellmark** and selecting **Find Care** on the Care & Costs menu or by calling BlueCard Access at 800-810-BLUE (2583).

Travel abroad for business or pleasure? Find participating Blue Cross Blue Shield Global doctors and hospitals at **BCBSGlobalCore.com**. Just enter the first three letters from your Wellmark ID card number and then select login. You can also call the same BlueCard Access number listed above.

Looking for the best in specialty care?

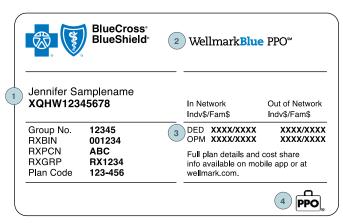

You can search for top medical facilities that have earned the Blue Distinction® designation. These facilities have a proven history of delivering higher-quality specialized care and better overall patient results by meeting strict, pre-determined quality standards developed by medical experts and providers.

Select Find Care on the
Care & Costs menu in
myWellmark and look
for the Find a Blue
Distinction Center link.

Show your Wellmark ID card at home and abroad

This helps ensure providers bill you appropriately. Your Wellmark ID card shows:

- Every contract holder has an identification number. It starts with a three-character prefix that identifies your Blue Cross and Blue Shield plan and is followed by your personal identification number.
- 2. The name of your health plan appears here.
- 3. The amount of your deductible and/or out-of-pocket maximum.
- 4. This logo identifies you as a BlueCard PPO® member.

FRONT

The back of your ID card includes information to:

- 1. Assist you with health plan questions.
- 2. Locate a provider in any state.
- 3. Notify Wellmark before receiving home health care services or admission to a facility.
- 4. Get your health care and wellness questions answered around-the-clock.

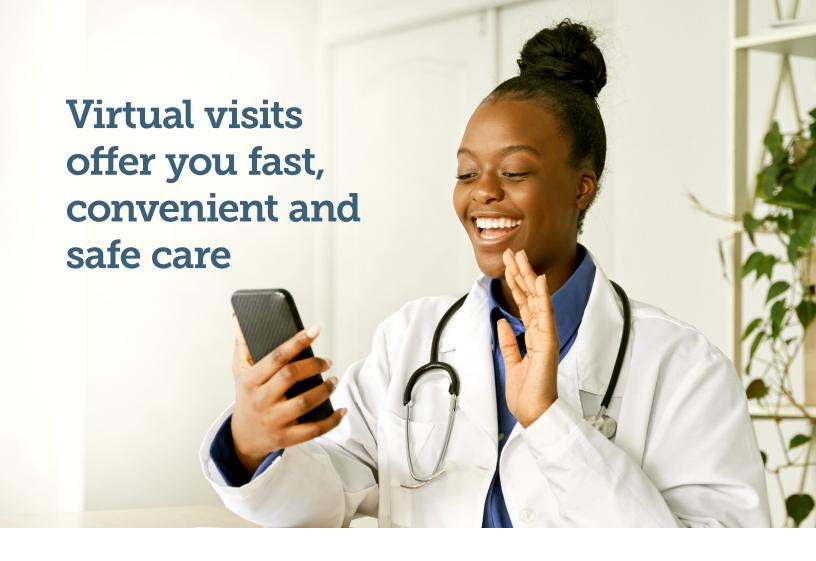

BACK

For illustrative purposes only. Depending on your plan, phone numbers, amounts and other details may be different and there could be more or less information on your Wellmark ID card.

Your ID card is the link to emergency care when you're away from home.

To be eligible for benefits, show your ID card to any Blue Plan participating hospital or provider.

Feel like you don't have time to go to the doctor? With Doctor On Demand®, you can video chat with a board-certified doctor from virtually anywhere using a smartphone, tablet or computer on your schedule — all for less than or equal to the cost of an office visit.¹

Why see a doctor online?

- · Less waiting with an average wait time of under 10 minutes
- · Costs less than or equal to an office visit
- · No need to leave home or work to see a doctor
- 4.9 star rating out of 5 from more than 28,500 customers with more than 1 million visits

Visit Doctor On Demand and get prescriptions² for

· Cold and flu symptoms

- Fever
- Bronchitis and sinus infections
- Headaches

· Urinary tract infections

· Pink eye

Sore throats

Skin conditions

· Allergies

Mental health concerns³

Visit **DoctorOnDemand.com**

or your app store to register and download the app for free today!

Costs may vary depending on your benefit selections. Check your plan documents in myWellmark to verify virtual visit costs for your plan.

² Doctor On Demand physicians do not prescribe Drug Enforcement Administration-controlled substances, and may elect not to treat conditions or prescribe other medications based on what is clinically appropriate.

³ For plans that include benefits for mental health treatment, Doctor On Demand benefits may include treatment for certain psychological conditions, emotional issues and substance use disorder. Services performed by Doctor On Demand clinicians are covered. For more information, call Wellmark at the number on your ID card or call Wellmark Customer Service.

With drug costs continuing to rise, our integrated medical and pharmacy programs focus on drug safety, effectiveness and cost reduction — without sacrificing performance — in order to reduce your overall health care costs. Our ultimate goal is to get you the best care for your dollar.

That's why your prescription drug plan with Wellmark is simple and straightforward. There are different coverage levels depending on what "tier" a drug is assigned to on the Wellmark Drug List. The lower the tier, the lower you pay out-of-pocket.

The **Wellmark Drug List** of generic and brand-name drugs helps guide you and your providers to select the most appropriate medication for the best price. It's created and updated by a team of doctors and pharmacists who review new and existing drugs and select them based on safety and effectiveness for treating a specific condition. They also evaluate drugs on how effective they are compared to similar drugs used to treat the same condition, all which help determine the drug tier.

Updates to the **Wellmark Drug List** happen as new drugs become available or drugs move tiers. If you take a drug on a regular basis, you may be notified when a change takes place. You'll want to double check the **Wellmark Drug List** if you get a new prescription or switch medications.

You'll want to double check the Wellmark Drug List if you get a new prescription or switch medications.

Ways to save on prescription drugs

Ask for generics. Generic drugs contain the same ingredients as brand-name drugs but typically cost much less. Even if a brand-name drug doesn't have a generic equivalent, a similar drug may be available to treat your condition.

Choose an in-network pharmacy. This is another easy way to maximize your savings. Upon arrival, just present your Wellmark ID card to the pharmacist.

Mail order pharmacy service. If you take a medication regularly, you can avoid a trip to the pharmacy by choosing to have drugs delivered to your home.

How to enroll in mail order pharmacy service

- Ask your provider to write two prescriptions, one for an initial short-term supply (e.g., 30-days) you can fill immediately at a participating retail pharmacy and a second for the maximum days' supply allowed by your plan, plus refills.
- 2. Register with the mail order pharmacy in one of three ways:
 - Online at **Wellmark.com**, where you'll also find the forms you need to enroll by phone or fax.
 - Mail: Complete a Registration and Prescription Order form and submit it with your first prescription order.
 - Phone: Call the mail order pharmacy at 866-611-5961 Hours are Mon–Fri., 7 a.m.–9 p.m. CT, Sat. 7 a.m.–4 p.m. CT.
- 3. Refill prescriptions by mail, phone or online once you've registered.

Specialty drugs and pharmacies

Specialty drugs are medications designed to treat conditions like multiple sclerosis, rheumatoid arthritis, hepatitis C and others that require non-traditional medications and special handling, administration or monitoring.

You can learn what drugs are classified as specialty drugs on the **Wellmark Drug List** by searching for the specific drug name or just by viewing the Specialty Drug List. It's important to know that medical benefits may cover these drugs, not your pharmacy benefits.

Specialty pharmacies are experts in supplying specialty drugs and services to patients. You can work with a specialty pharmacy to have your medications delivered directly to your home, office or local CVS pharmacy. They can also provide you educational materials about your condition and the medications that have been prescribed to you, including 24-hour access to a pharmacist.

Your plan may require you to purchase specialty drugs at a specialty pharmacy. If a participating specialty pharmacy is not used, you may be responsible for the full cost of the prescription. There are no additional costs for shipping and handling.

Check your plan documents for pharmacy benefit details with **myWellmark** by selecting **Pharmacy** on the Coverage menu.

How to order specialty drugs

- 1. Call CVS Specialty® Pharmacy at 800-237-2767 Monday–Friday, 6:30 a.m.–8 p.m. CT.
- Provide your provider's contact information and your Wellmark ID card information.
- 3. A representative will confirm the prescription and dosage with your doctor and make arrangements to get your order delivered.
- 4. Your provider will work on your behalf to start your specialty drug therapy.
- 5. Find additional instructions and enrollment forms at Wellmark.com.

Get free prescription drug tools

Find the name of your prescription drug plan, what drugs are covered, their tier and what they'll cost you through myWellmark. You can also use myWellmark to find in-network pharmacies, track your claims, find generic drugs and more.

If you're new to Wellmark or your benefits haven't gone into effect yet, you can also find the Wellmark Drug List on Wellmark.com.

As a Wellmark member, you have access to free tools and resources to maximize your benefits. They're all designed to help you manage your health care costs and live a healthier life.

Take myWellmark on-the-go with the Wellmark mobile app

The Wellmark app gives you access to your favorite myWellmark tools on your smartphone. Get the speed and convenience of:

- · Checking pending and processed claims
- · Instant access to your specific plan details
- · Digital ID cards, available to print, download or email

Free Wellmark

- · Finding in-network care and cost estimates on-the-go
- · Access to electronic documents, including your explanation of benefits
- · Finding mental health resources

Know your out-of-pocket costs with your Explanation of Benefits (EOB)

An EOB is a recap of what your health plan has paid. Your EOB is not a bill. However, it's important to review it to make sure you have been (or will be) billed correctly, as it details:

- · The amount your provider charged for each service
- · How much your health plan paid for each service
- · The amount you saved by staying in-network
- · Any out-of-pocket costs that the provider will bill you for separately

How to read your **EOB** and get it online

Confused about your EOB? Learn more at:

Wellmark.com/EOB.

You can also go paperless and get your EOBs delivered to you immediately in four easy steps.

- 1. Register or log in at myWellmark.
- 2. Select Profile from the menu at the top.
- 3. Click Notifications.
- 4. Select your preferences and click Agree & Save.

How to download the app

Download the app at myWellmark.com or by searching for Wellmark in your app store.

Open the app and select myWellmark.

Log in using your myWellmark user ID and password.

Get member discounts and savings with Blue365®

Get real help from real people with BeWell 24/7®

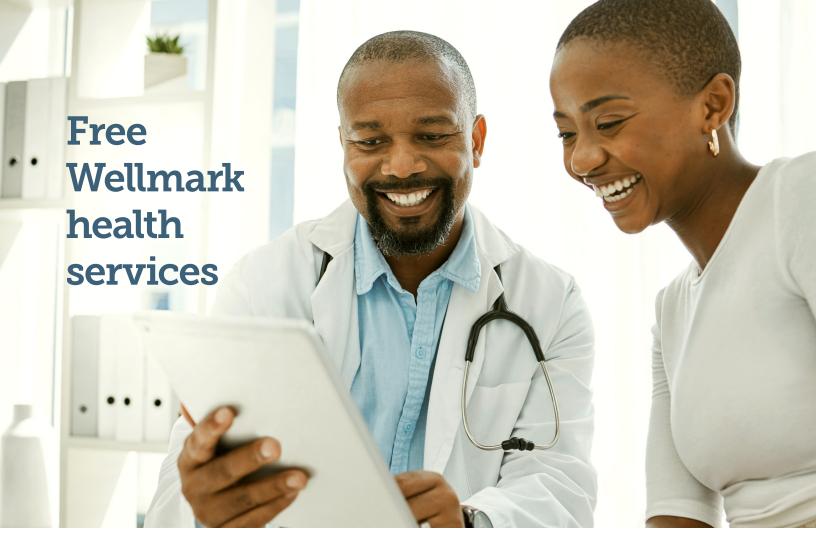

Life can get pretty stressful. Like when your toddler has a fever at midnight, you're coordinating care for an elderly parent who lives out of town, or you're having side effects from a new drug and don't know what to do. Luckily, there's BeWell 24/7.

By calling 844-84-BEWELL (844-842-3935), you will get real help from medical professionals, 24 hours a day, 7 days a week. You'll be connected with a real person who can help you with a variety of health-related concerns.

For example:

- **Get answers to health questions**. Clinically trained nurses can provide answers to questions about treating the common cold, fevers, minor burns and sprains, and common rashes.
- · Locate in-network doctors. Get help finding an in-network doctor at home or while traveling saving you time and effort.
- **Know the best place to go for care**. Locate appropriate, in-network care based on your symptoms, saving you money on unnecessary appointments or emergency room visits.
- **Get decision-making support**. BeWell 24/7 registered nurses can help answer questions about medical treatments, surgeries and tests.
- Find guidance for complex health issues. BeWell 24/7 nurses can refer you to Wellmark's Case Management Program to assess your whole-health situation and develop an individualized care plan.

Wellmark also offers free health services to get you engaged with your health. We collaborate with your health care provider to help you use and navigate the health care system so you get the right care at the right time and place.

You get:

- · Advice from real clinicians with real-world experience.
- · Personalized support from a single point of contact.
- · Access to an integrated care team.

Our Case Management program helps members with complex and chronic conditions stay well and access preventive care, identify gaps in care, and navigate and coordinate care. This proven, tailored approach for each individual effectively improves your health outcomes by assisting you before, during and after you receive care — and helps reduce your burden and total costs.

How to engage in Wellmark's Case Management program:

- You may consider taking advantage of Case Management by calling BeWell 24/7 844-84-BEWELL (844-842-3935) — to speak with a nurse, discuss your health concern and help determine if Case Management is right for you.
- 2. You may also be identified through your claims or referred by your doctor, and then you'll be contacted by Wellmark via mail or phone.

This health services program is not a substitute for patient care or treatment by a physician. Check with your employer to see if these services are available to you.

You have access to free health services. We're here to help you use them.

Sign up via myWellmark

These trusted and helpful online resources are available when and where you need them at myWellmark by going to the Well-being tab.

When Wellmark calls, should you answer?

The answer is yes. A nurse or health support team member may call to help and give you important information.

Case management. For severe, complex and chronic conditions (for example, behavioral health, strokes, brain injuries, complications from diabetes and others), Wellmark provides additional nurse coaching and support. We want to help coordinate care for you and overcome barriers you may be facing during your recovery. We will talk through care coordination, in-home care, meal delivery or other support.

The level of support you receive is based on how well you're managing your condition and the goals you'd like to reach. Participation is voluntary and free.

Pregnancy Support. Wellmark offers guidance and support to women throughout their pregnancy and postpartum.

Transition of care. Wellmark's nurses will contact you for pre and post-discharge follow-up for select hospital admissions to provide education, resources and support. The purpose of these calls is to make sure you are on the path to recovery and have not experienced any new symptoms.

Supporting healthy pregnancies

Pregnancy can be wonderful — it can also be overwhelming. Our Pregnancy Support Program provides resources to help our members have a healthy, stress-free pregnancy through each stage and beyond.

We've partnered with some of the most trusted resources to provide helpful information, including:

- WebMD® pregnancy assistant Find answers to your pregnancy and postpartum-related questions from reputable health care professionals you can trust.
- Count the Kicks[®] Keep track of your baby's normal movement patterns in the third trimester.
- Access to nurses Rather receive support throughout your pregnancy over the phone? You can request a call from a Case Management Pregnancy Support nurse by calling 800-552-3993 ext. 3727.
- BeWell 24/7°— Call 844-84-BEWELL (844-842-3935)
 to connect with a real person who can answer your most
 pressing questions any time of the day. We'll take the time
 to listen to and address all your pregnancy or postpartum
 concerns.
- Online pregnancy assessments Wellmark offers both prenatal and postpartum assessments. Go to myWellmark and enter your health history and information to see if you may benefit from nurse support over the phone.

You're probably aware of the traditional ways of maintaining good physical health: eating right, exercising frequently, and getting annual health screenings and immunizations. However, evidence has proven that by taking a holistic approach to well-being, health-related costs drop by 41 percent.

That's why Wellmark is here to help you focus on the six holistic elements of your well-being:

- **Physical** When you feel better physically, you're happier, healthier and spend less time and money at the doctor's office.
- Career It's important to your health to be able to use your strengths at work and understand how what you do ties to your organization's business goals.
- Financial Nearly 78 percent of Americans are living paycheck-to-paycheck. Look into programs to help you trim debt or save money, they can help ease your mind.
- Social Relationships between friends, family and coworkers can help define who
 you are and how you feel. So make the time to improve your social well-being for
 better health.
- **Community** Seventy-seven percent of Americans believe volunteering is essential to their overall well-being. Find opportunities to give back by volunteering for a cause you care about.
- Emotional Being emotionally grounded is essential to leading a happy and
 productive life. Get the resources and support you need to improve your emotional and
 mental health.

Now, more than ever, people are looking for ways they can stay and remain healthy throughout the year. Taking care of the six elements of your well-being is a great way to start — and we're always here to help.

A journey to a healthier you

Wellness is about taking a look at the bigger picture, which includes your physical health, career, finances, social interactions, mental health and community involvement.

Get started on your well-being journey by going to myWellmark and selecting the Well-being section to access Wellmark Connect. You can make progress toward your goals with access to a wellness assessment, health trackers, Blue365 discounts, and more.

Get started today

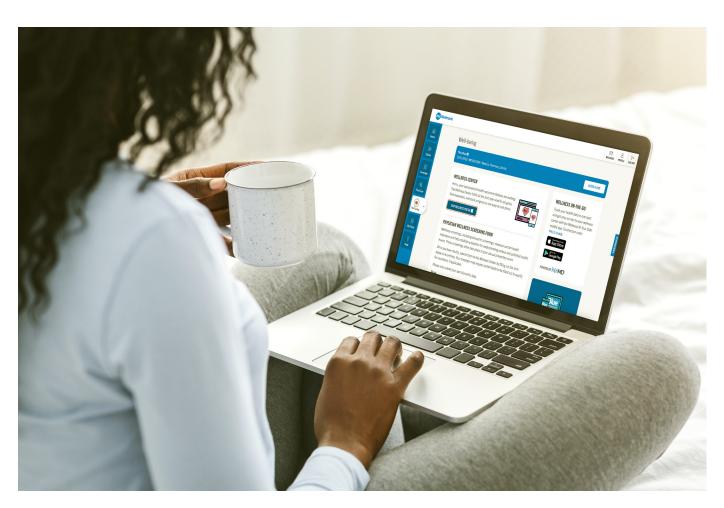

Log in or register for myWellmark® at myWellmark.com or via the Wellmark mobile app.

Once you're logged in, click the Well-being section and then the Visit Wellmark Connect button. Then, take your Wellness Assessment to determine your health goals and make an action plan on how you can reach them.

Wellmark Connect can help you reach your health goals

Wellmark Connect powered by WebMD® offers:

- A comprehensive Wellness Assessment that gives you accurate, confidential and
 personalized reports that summarize what you are doing well and create personalized
 action steps to help you improve different areas of your health and well-being.
- Personalized experiences with articles and resources that are tailored to your personal interests and health status.
- Daily Habits are lifestyle and condition based behavior change plans to support your individual goals based upon information you supply regarding your health, personal interests and current habits.
- **Well-being resources** including podcasts, interactive quizzes and calculators, videos, a symptom checker and more.
- The ability to sync your Fitbit™ activity tracker and monitor your calories burned, exercise minutes and daily steps.

Resources
